When you are on safari, you get a 4WD vehicle which is for your exclusive use only. This has the advantage that your safari will be far more flexible in terms of times of departure and times can be agreed between you and the driver-guide on a daily basis. It also means that for example on a full day game drive you may want to return to the lodge for lunch instead of taking a packed lunch or you may feel tired on a particular day and want to return to the lodge to relax and enjoy a cool drink by the pool. You may also want to stay at a particular area where there is a specific animal that you would like to view for an hour or more.

The most important aspect of a safari with us is our driver-guides. You will spend a lot of time with them all our driver-guides are hand-picked and are very friendly, cheerful, experienced and knowledgeable about the parks and animals. We can forward you copies of questionnaires filled by our previous clients should you wish.

**Day 03 MASAI MARA**

Morning and afternoon game drives in the Masai Mara National Reserve.

One of East Africa's most famous reserves, the 1,600 sq km 'Mara' consists of undulating hills and great rolling grasslands that sustain some of the most varied wildlife in Africa, if not the world. There is always game in the 'Mara', however it changes its character dramatically with the seasons.

When the grass is fairly high in many areas, game-viewing is restricted, but the countryside is incredibly green and at its most scenic. As the countryside dries out, game-viewing improves. Game concentrations are at their greatest from around July to the end of October, when the migrating herds filter across the Mara River from western Serengeti. During this period, you will find vast plains filled, as far as the eye can see, with wildebeest, zebra, gazelle, eland, Topi and hartebeest as well as the normal resident herds such as elephant, buffalo and giraffe. Naturally, these are all followed by great prides of lion, hyena, cheetah and the various other predators and scavengers. Many animals do not survive these annual trips due to exhaustion or the treacherous river crossings, where some of the world's largest crocodiles await their feast.

It is the migratory flocks of thousands of greater and lesser flamingo that really create the attraction here, when the lake's shallow waters turn pink. Black and white rhino, the rare Rothschild's giraffe, a small herd of buffalo, dik dik, klipspringer, eland, the occasional leopard and many other plains game are also found here.
