Day 04 VOLCANOES NATIONAL PARK

Gorilla trekking including permit and personal porter

After an early breakfast at 06:30, you will head to RDB offices for briefing on your gorilla trekking that starts at 07:00.

Volcanoes National Park protects the steep slopes of this magnificent mountain range which is home of the rare Mountain Gorilla and the rich mosaic of montane ecosystems which embrace evergreen and bamboo forest, open grassland, swamp and heath. You may spot a wide variety of birdlife but the high point will be spending an hour with the remarkably peaceful gorillas despite their size and appearance as they go about their daily life, feeding, playing, resting and raising their young.

You will be allowed an hour with these wonderful creatures. After the trek, you will return to the lodge for lunch and the rest of the day will be at leisure.

Gorilla permit & porter:

This quote includes your gorilla permit. This is inclusive of park entry fees. Viewing time is limited to one hour. There is a maximum of 8 visitors per group. We include a porter each. Porters help carry bags and cameras as well as helping you with your footing along your hike.

Gorilla guidelines:

To minimize possible transmission of human diseases, visitors are asked to maintain a distance of 7m (about 22 feet) from the gorillas. If you are sick with a cold, flu or other contagious illness, please do not visit the gorillas. Spitting in the park is strictly prohibited. Should you need to cough, cover your mouth and turn away from the gorillas. When with the gorillas, keep your voice low. Try not to make rapid movements that may frighten the gorillas. If a gorilla should charge or vocalize at you, do not be alarmed, stand still, look away from the gorilla and follow your guide's directions. Do not litter. Tracking can be done by persons of age 16 and above.

Recommended clothing & kit list:

We recommend long trousers and shirts when in the forest to avoid nettle stings. Steady walking shoes or hiking boots are essential. Raingear is useful. Also, we recommend bringing a water bottle and a small snack although eating and drinking near the gorillas is forbidden. Of course, don't forget your camera! Photographs are permitted although you may not use flash.

Fitness:

Mountain Gorillas live at high altitude (2500 – 4000m) and this may cause difficulties for some visitors. You should walk slowly and drink plenty of water. Hikes in the mountains can last anywhere from 30 minutes to 4 hours + depending on the family allocated to your group and their location. The journey back can take just as long but you are often carried along by the euphoria you feel at seeing the gorillas!

**Day 05 VOLCANOES NATIONAL PARK****Golden Monkey trekking including permit and personal porter**

Today, you have an early breakfast and transfer to the park headquarters for Golden Monkey trekking briefing.

The tracking usually takes about 4 hours. Once you come to the habituated families, you will spend the allowed one hour with them as they go about their daily life.

Trekking to see the Golden Monkeys is another highlight of Volcanoes National Park. The Golden Monkey (*Cercopithecus mitis kandti*) is a local subspecies of the widespread Sykes Monkey, also known as the 'Blue Monkey' and is endemic to the high-altitude forests. The monkeys are playful and inquisitive and often spend their time leaping from bamboo branches or frolicking on the forest floor. There are two habituated groups of Golden Monkey, one group comprises around 80 - 100 members and has its home at the foot of Mt Sabyinyo.

After the trek, return to the lodge for lunch and rest of the at leisure.
