Days 03 - 04 VICTORIA FALLS

Victoria Falls is one of the 'Seven Natural Wonders of the World' and offers some of the most breath-taking views you'll ever encounter on the African continent. The Falls are located on the border between Zimbabwe and Zambia attracting tourists worldwide to both countries.

The massive sheet of falling water and the spray it produces is captivating to say the least. Above the Falls the Zambezi River is renowned for its beauty, with banks and islands of luscious vegetation and abundant wildlife. Add to these sights the sounds of the river, the grunting of hippo, the hauntingly beautiful cry of the fish eagle and the constant ever present roar of the Falls, and you have a small piece of paradise.

Dr Livingstone, a Scottish missionary doctor and famous Africa explorer 'discovered' the Falls on November 16, 1855. Livingstone, named the Falls after Queen Victoria as a tribute to the 19th Century monarch, and was famously quoted as writing 'scenes so lovely must have been gazed upon by angels in their flight'. As a reminder of this, the scenic helicopter rides over the Falls (one of a large variety of adrenalin activities on offer here) are known as 'the flight of the angels'.

Long before David Livingstone 'discovered' the falls however, the Kololo people living in the area in the 1800's described it as 'Mosi-oa-Tunya' meaning 'the Smoke that Thunders'. This mighty waterfall was declared as a World Heritage Site in 1989 for being one of the most spectacular water cataracts in the world. It is a place of legend, myth and romance.

Numerous activities can also be booked locally including bungee jumping, white-water rafting, sunset cruises and canoeing.
